As the barometer will give a good approximation to the true height at every station, and as the distances may be pretty accurately taken; a profile across an extensive district may be taken in a short time. From five to ten miles per day may be taken by an experienced surveyor, and a skilful barometer-bearer. If notes are extensively taken, much of the character of the country may be presented on, or accompanying, the profile and sketch-book. Sec. 167. The barometer should be applied twice at every station in the same day. It is found, that when the atmosphere is uniform, and the barometer is not influenced by change of temperature nor...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
