Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

GRIN Verlag Okt 2011, 2011. Taschenbuch. Book Condition: Neu. 209x149x7 mm. This item is printed on demand - Print on Demand Neuware - Scholarly Research Paper from the year 2008 in the subject Politics - International Politics - Topic: Miscellaneous, grade: 1,7, Free University of Berlin (Center for Global Politics), course: Migration, language: English, abstract: Transnational migration and the creation of transnational social spaces is not a new phenomenon as such. It has existed long time before it has become a fashionable desired study subject. However, when globalization took off in the 1980s, transnational ties have changed quantitatively as well as qualitatively, and thus the topic has gained in importance. Various revolutionary technical innovations facilitated to maintain transnational contact between country of origin and the new destination on an instantaneous basis. Currently hence, such ties can be as intense as ever. The new thing about transnational migration is rather - in compliance with Glick Schiller - that scholars provided the social sciences 'with a vocabulary and a framework to analyze the way in which migrants and their descendants participate in familial, social, economic, religious, political, and cultural processes that extend across the borders of nation-states' enabling scholars to 'conceptualize simultaneity, the ways in which individuals settle into a new locality and also maintain various kinds of social relationships that extend into other nation-states (2006, p. 8). 16 pp. Englisch.
