PLANT TISSUE CULTURE: AN ALTERNATIVE FOR PRODUCTION OF USEFUL METABOLITES/FAO

Daya Publishing House, 1997. Hardcover. Book Condition: New. Higher plants contain a variety of metabolites that are useful as medicines, food additives, perfumes, etc. Decreased plant resources, increases in labour costs and other problems in obtaining these valuable substances from natural plants have stimulated work in the area of plant cell culture for their production. Studies have been carried out on an increasing scale since the end of the 1950s and the results have stimulated more recent studies on the...
